

CHILD HUNGER IS AN EPIDEMIC

Each year, malnutrition affects millions of kids worldwide:

 **52** **MILLION CHILDREN**
are acutely malnourished

 **34** **MILLION CHILDREN**
are severely malnourished

 **1** **MILLION CHILDREN**
die from severe malnutrition

(This means malnutrition causes **15%** of all child deaths)

**Together, we can
end child hunger**

CHILD HUNGER IS AN EPIDEMIC

BUT

CHILD HUNGER IS PREVENTABLE

Each year, malnutrition affects millions of kids worldwide:

 **52** MILLION CHILDREN are acutely malnourished

 **34** MILLION CHILDREN are severely malnourished

 **1** MILLION CHILDREN die from severe malnutrition

(This means malnutrition causes **15%** of all child deaths)

For the first time in history, we can end hunger, because it's:

 **PREDICTABLE**
We know where and when malnutrition is likely to strike

 **PREVENTABLE**
We know how to keep children from becoming malnourished

 **TREATABLE**
Therapeutic nutritional treatment can save millions of young lives

 **AFFORDABLE**
Just \$45 can provide a child in need with lifesaving care

CHILD HUNGER HAS A SOLUTION

AND

WE'RE FIGHTING CHILD HUNGER

Ready-to-use therapeutic foods (RUTFs) are game-changing:

 **REVOLUTIONARY CARE**
RUTFs don't require preparation, clean water, or long hospital stays

45 **DAYS**
of treatment can restore a malnourished child to full health

45 **DOLLARS**
covers a full course of therapeutic nutrition treatment for a child in need

90 **PERCENT**
to 95% of children who receive treatment regain full health

Therapeutic nutritional treatment saves millions of young lives:

 **SOLUTIONS TO SCALE**
Now, more children can receive lifesaving treatment at home

In 2012 alone, **2.6** MILLION CHILDREN were saved from deadly hunger

(but even with these advances, **only around 10%** of malnourished children receive the care they need)

WE WANT TO REACH THEM ALL

TOGETHER, WE CAN END CHILD HUNGER
